DUVET DES CHARDONS

/

Capturing the fragility and ephemeral essence of a thistledown, this sensuous work puts a polish on the organic form and reimagines it using noble materials in 16 limited-edition pieces. Boasting an impressive 6' diameter, yet lent an unexpected lightness, its suspended scintillating silhouette holds 350 meters of narrow golden-hued chains delicately bound together by a 24k gold-plated solid brass structural core. Bespoke lighting mechanics, encased in the cylindrical base and the centred hand-blown glass globe, softly illuminate the radiant chains intermittently and gracefully allow subtle plays in shadow and light. A celestial piece evoking poetry in a superlative form, it is entirely handcrafted and hand-assembled with the utmost care and attention to detail. Requiring the expert hands of master artisans exhaustively for around 80 hours, each unique piece is ultimately completed with a light featuring a warm, candle-like kelvin degree.

LAROSE

GUYON

/

Fueled by the belief that simple, innovative and refined design is ageless and essential to the human experience, Audrée L. Larose and Félix Guyon founded design studio Larose Guyon in 2015 in Verchères, Quebec. Presenting a rightful escape from urban cacophony, Verchères, an enclave of natural beauty, rich in history, stunning foliage and picturesque panoramas, inspires tranquility and creativity. Taking cues from the majestic surrounding nature the duo continuously explores and reinterprets the moving landscape and its complex identities through unique design and noble materials. In a resolutely modern and luxurious style, Larose Guyon uses lighting and object design as a medium to further seek a connection to space and roots. The outcome is sensuous, organic and delicate shapes that are daring, sophisticated and are steeped in heritage and myth.

Evoking the rich elevated language and ingenuity of jewelry, the compelling compositions espouse the concept of natural luxury, combining high design with refined materials that boast various finishes and textures.

The intricate silhouettes, mesmerizing lighting structures and exquisite objects strike a perfect balance between heritage and modernity. Shaped by local master artisans using age-old savoir-faire and traditional techniques, they are imbued with poetic allusion and elegance, seductively adorning a space and adding a hint of magic and bold expression to the everyday.
