

The New SWIZA Swiss Knife

SWIZA D03 / échelle 1:1

The New SWIZA Swiss Knife

The SWIZA Swiss Knife represents a revolutionary redesign of the legendary Swiss Knife. The ergonomic curved shape, sure-grip, soft-touch finish and easy access blade and tools make it the most comfortable and easy to use Swiss Knife ever.

Form follows function. The new SWIZA Swiss Knife features a long (75mm), extra strong blade manufactured of stainless steel 440 and hardened to 57 HRc, with a die-cut slot that makes it easy to open with either the left or right hand. The ingeniously designed hardened stainless steel tools include significant improvements including a blade with secure lock released by pressing the SWIZA cross icon and a sommelier caliber 5-turn corkscrew. The stainless steel tools and plates and high quality plastic scales are easy to clean and maintain.

This new Swiss Knife is destined to become the new standard in Pocket Knives and a useful, versatile and must-have accessory for anyone that wants to be prepared for the challenges

and adventures that everyday life offers. It's available with 4 different blade and tool combinations and in 4 vibrant colors (signature SWIZA red, husky eye blue, snow white and graphite black) all inspired by the landscape of the Jura Mountain region where Swiss Pocket Knives have been skillfully manufactured for generations.

Blade Features

The blades in every SWIZA Swiss Knife are forged from a chrome and molybdenum alloy to obtain an extra strong, durable and tenacious blade and then polished to an impervious stainless steel finish.

- 440/57 HRC Stainless Steel
- 75mm Length
- Excellent cutting performance
- Die-cut slot on spine for easy opening with either the left or right hand
- Safety Lock System: press the SWIZA cross button to release the lock allowing the blade to close

Reamer/Punch

This hardened stainless steel universal bottle opener can also be used to pry and remove small nails, bend wire with the integrated wire hole and includes a No. 3 flathead screwdriver. It also features additional resistance at 90° and 180° for optimized use.

Bottle Opener / Screwdriver

The hardened stainless steel can opener efficiently opens cans by hooking the tool under the rim of the can and cutting the top using a rotating up-and-down motion. This versatile tool also features a No. 1 flathead screwdriver at the end of the tool.

Can Opener

The sommelier caliber hardened stainless steel corkscrew has a cork-friendly diameter and 5-turn action that easily and confidently pulls corks without tearing.

Corkscrew

Diamètre adapté au bouchon. Fabrication à 5 spires, assez larges et peu épaisses, pour une extraction facilitée.

Phillips Screwdriver

This convenient, stainless steel tool features a fast, secure engaging No. 1 Phillips head and the high torque strength of 54 HRC steel.

Tweezers

Made from high-quality hardened stainless steel, these handy tweezers feature beveled tips for high precision use including removing splinters and thorns. The improved lever thickness increases the spring effect and bend shape is engineered to ensure optimal grip and use.
