

## PRODUCT : SELF-ADHESIVE WALLPAPER MERAKI

- Designed and made in Quebec
- Rich texture reminiscent of an artist's canvas
- Peel and stick phthalate-free adhesive vinyl, one of the thickest available at 6/1000 of an inch, completely opaque
- Easy to align, cut and reposition during application, remains removable for a few weeks afterwards
- Can withstand moderate humidity (without splashing), suitable for indoor use only
- Wash with a soft, damp cloth with no cleaning product

### ADHESIVE WALLPAPER

- With adhesive wallpaper, it's possible to position several panels one after the other, like a tapestry, in order to create a succession to cover an entire surface (wall, door, ceiling).
- **Available heights**  
48", 72", 96" et 108"
- **One width available unique**  
28", which includes the excess needed to overlay the panels (approximately 1/2")
- Note: panels of the same pattern and similar dimensions are identical. So they'll fit perfectly, regardless of the order of installation.

### ADHESIVE CUTOUTS

- Separate pieces that can be installed independently of each other
- Several sizes

## ABOUT

### PIGMENT DESIGN

Founded in 2010, Pigment Design specializes in beautifying Quebec businesses. First alone and then surrounded by trendy helpers, Giguère-Robitaille has developed tailor-made services through which she sets herself apart with an exclusive offer: to provide presentation design by creating, planning and generating two-dimensional and three-dimensional impacts of all kinds.
