HOW IT ALL BEGAN: A MAN WITH A VISION

André BOUSQUET,

Born in a tiny village in Aveyron (France), André BOUSQUET left his home region and headed to Paris to set up an electrical company. He soon realized that the products available were lacking the quality finish he was looking for.

By that time Paris had captured his heart, and in 1995 he chose France's capital as the home of his new company producing luxury brass switches and outlet plates. But in a nod to his origins he chose to name the firm MELJAC, after his beloved home village.

André BOUSQUET's innovative, attractive products soon caught the eye of architects, decorators and home owners. His aim was to combine functionality and style, drawing on traditional know-how.

A trailblazer in the field, André BOUSQUET took his company all the way to the top, positioning it as a market leader and offering a constant stream of new products.

He embarked on a strategy of international expansion in 1997.

In 2015, as MELJAC celebrated its 20th anniversary, André BOUSQUET decided to lay the groundwork for the company's future by hiring a CEO, Jean-Michel Lagarde. The new position was created to develop a more formal management structure for the ever-expanding company. MELJAC's products are now sold in 60 countries.

Over a four-year period, André BOUSQUET worked closely with Jean-Michel LAGARDE, sharing his passion for the company and entrusting him with the task of securing lasting growth and enhancing the brand's visibility at international level.

André BOUSQUET died prematurely in 2019, but his dynamic approach, respect for French craftsmanship and generous nature will leave a lasting legacy. Today Jean-Michel LAGARDE sees his role as an honor, and he is more determined than ever to lead MELJAC forward. He can rely on the professionalism and expertise of the company's 90 employees, all of whom adhere to MELJAC's passion and human values and are committed to the company's future.

Jean-Michel LAGARDE,

“ A switch shouldn't just be functional.
It should be attractive, even sensual.”

André BOUSQUET

As a symbol of love to his home region, André BOUSQUET planted vines from the Aveyron on the grounds of the MELJAC factory outside of Paris. This vineyard pays homage to the great wines of the Aveyron such as the famous "Côtes de Millau".

The first harvest took place in 2013.

◀ 265 vine plants planted behind the MELJAC factory

MELJAC NORTH AMERICA : A US-BASED SUBSIDIARY

In 2018, MELJAC enhanced its position in the American market with the opening of its first international subsidiary, MELJAC North America.

Previously available only through an independent distributor, this direct presence now allows the company to provide better customer service through deeper involvement and insights into this sprawling market.

“By building on our renowned reputation in Europe, my aim is to transform MELJAC into the market leader in luxury electrical equipment in the United States. I firmly believe that the quality and craftsmanship of Meljac products, combined with our ability to offer bespoke details unique to each project, provide an unmatched opportunity to deliver on the expectations and desires of the country's design community and end-users. This potential has led me to invest personally in the project to grow the brand while always preserving and conveying its founding values.”

Jean-Luc DESCHAINED, Principal of MELJAC North America

MELJAC offers UL-listed products, including receptacles and back boxes, that have been adapted for wide-use in the American market:

- . Chanel (New York),
- . Four Seasons Hotel & Residences at the Surf Club (Miami Beach)
- . Louis Vuitton Miami Design District (Miami)
- . NoMad Hotel (Los Angeles).

With operations based in California and inclusion in the [Par Excellence](#) showroom in New York, MELJAC North America is able to maximize support and growth amongst clients on both coasts.

FRENCH MANUFACTURING OF THE HIGHEST QUALITY

Discover the secrets to MELJAC's expertise in the video:

Labels

In 2012, the brand obtained the "Guaranteed French Origin" label for all of its lines in brass and its reading lamps, then in 2017 for the whole range (porcelain and glass). The award of this label, guaranteeing at least 50% French manufacturing, falls within the values held dear to the company. In fact, almost the entire

In August 2015, MELJAC is proud to be the first company in its sector to being awarded by the EPV label (Entreprise du Patrimoine Vivant).

Made in France category

In 2018, Yves JEGO, CEO of PRO France, awarded the *PME-Bougeons-nous Trophy* to MELJAC for its use of French know-how and craftsmanship.

TWO FACTORIES

(Paris)

Handcrafted in our workshops close to Paris, MELJAC products are the result of expertise applied to every step of the manufacturing process: design/engineering, stamping, engraving, finishing and mounting, before being packaged for global export.

The know-how of MELJAC team is involved in achieving each of these steps.

The result is a highly popular standard range and high demand for the tailor-made products that MELJAC is known for.

The manufacture process combines cutting-edge technology and tools with irreplaceable French savoir-faire and craftsmanship.

PROVEN EXPERTISE

In 1995, André BOUSQUET dared to market a range of brass switches and sockets.

Inspired by the lifestyle of the 1930s, symbolised by the drop-shaped toggle switch, André BOUSQUET designed a product with impeccable aesthetic qualities. Today, this innovation remains the company's strength.

After a number of crucial steps such as conformity to standards, the technical development of the models and their adaptation to the market, the range was expanded.

Besides lighting controls and outlet plates, MELJAC increasingly responds to requests for adaptations and cover plates for third-party mechanisms and systems (bells, alarms, keypads, temperature controls, motion-sensors detectors, etc.). MELJAC controls the whole production chain.

Present on the international scene, the company has more than 35 dealers in France and abroad, where the market is experiencing strong growth.

Born of high-precision technology and skilled craftsmanship, the unique sensual and seductive beauty of MELJAC electrical equipment enhances distinctive interiors and blends easily with any decor.

- 2019 : Death of André Bousquet
- 2020: Consolidation of the new organization

A GLOBAL PRESENCE

Shortly after its founding, MELJAC created an Export department to begin selling its products abroad. The first international sales were in Switzerland, followed by requests from Italy, Russia and Lebanon. As a result, products were designed specifically for foreign markets, many of which were created for the hotel sector. The process of obtaining local standards approvals often required several years of work.

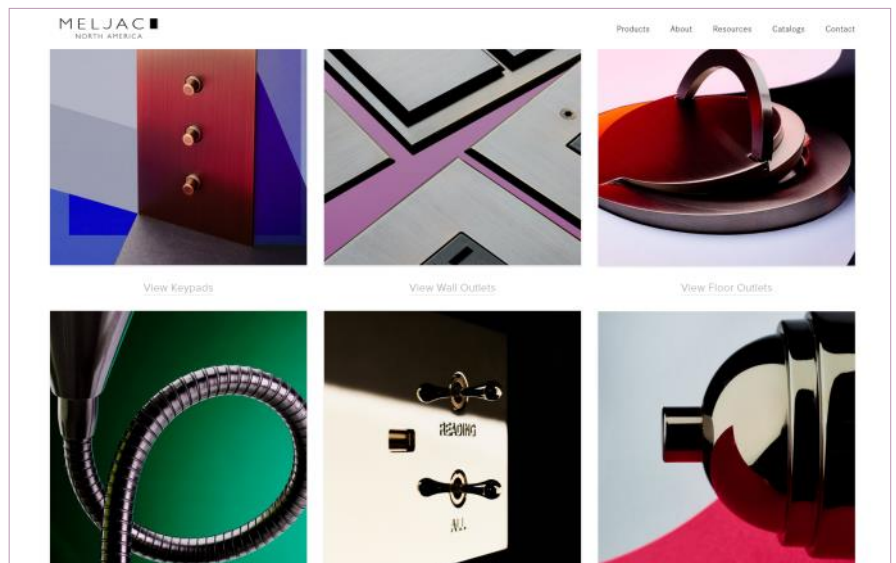

The well-known quality of products carrying the "Made in France" label, the brand's famous design skills and its corporate values were genuinely attractive overseas.

Since 2014, MELJAC has been putting a solid network of retailers of its products in place abroad. Little by little MELJAC is expanding to new and promising markets in an ever-widening geographic area. The company designs products adapted to their market place and guarantees it will offer high quality service and support for orders and projects.

Today the brand is available all over the world, with approximately 60 authorized dealers to help serve each their respective markets. The company has one subsidiary in the United States of America.

Controlled and durable international expansion

MELJAC rewarded for its Export strategy, winner of the Export category in the Trophées de l'international CCI Paris IDF 2017, confirmed.

INNOVATIONS

MELJAC products are not just beautiful.

Technical research and development have produced in patents and exclusive technologies.

SOL collection: IP44

Patented model

Made in 10 mm-thick solid brass, (14mm for other countries), the SOL Collection is robust, elegant and water-resistant (IP44).

The range is available in single, double or quadruple configuration which can accommodate various mechanisms such as power

IDM mechanisms

This new generation of mechanisms is available on numerous products.

They have lots of advantages: secure terminals, a more reliable connection and above all a connecting without constraints, quick and easy.

Exclusive to MELJAC

Push buttons Damier :

Meljac diversifies the

EXCEPTIONAL PIECES

The brass power strips

This innovative product line is currently composed of 4 models (Calypso, the "Z", the Pyramid and the Totem).

The power strips are customizable, thanks to engravings and combinations of mechanisms (sockets, USB, RJ45, switches, control screen ...).
