

ETCETERA PENDANT GROUPING - NATURAL

The Etcetera Pendant Natural balances the sculptural with the streamlined.

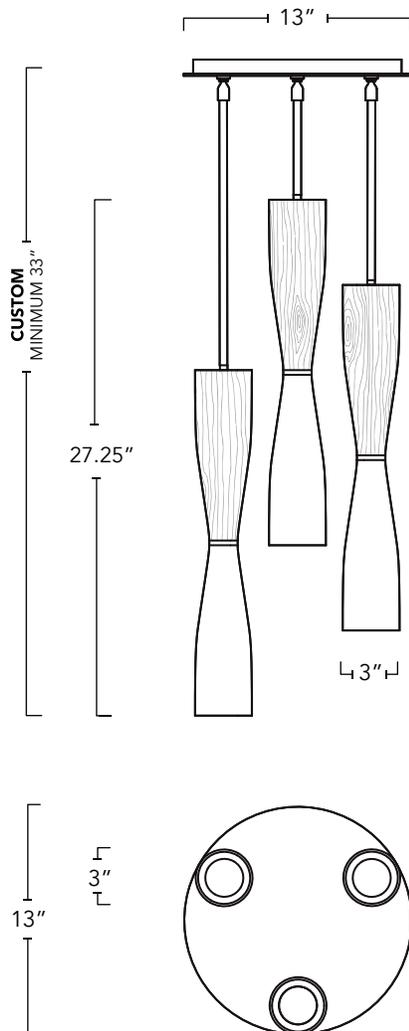

With an organic feel, Etcetera uses design geometry to create pieces that are decidedly natural. Native wood species meet sandblasted glass to create a soft presence.

Groupings of three Pendants are available in Offset or Level configurations. Custom configurations are available.

Wood options include Walnut, Rift Oak or Bleached Maple. Glass options are hand-blown sandblasted or glossy Opal. Metal choices include vintage or blackened brass, polished or satin nickel.
