

Through the display of the sealed volume produced by dislocation and deviation, sealed the flow of air and the meandering light and shadow effect of the flow of traffic and traction passively.

## Aqua Health Clinic ----- Exhibition of Frozen Time

" All aquatic life hides in the water. " the old Chinese saying goes like this.

The traditional Chinese medicine clinic hidden in a crisscrossing alley, named " aqua " with the concept of " morphology ". The materials of traditional Chinese medicine and the nostalgic of old Beijing are condensed and displayed in here. You will realize a circuitry, moving and dramatic sensory experience when you walk in this space.

Aqua Health Clinic looks like an exhibition that conjures up the time. When you come into the space where it is like a gallery, displaying all kinds of strong visual impact but it is also full of peaceful and beautiful sensory quality. We congealed light and shadow, air and water of different shapes in nature. We condense plants, animals and minerals taken from nature and incorporated into traditional Chinese medicine. We even condensed beautiful memory in the old Beijing alleys to format a traditional Chinese medicine clinic.

Just as traditional Chinese medicine seals and hides various plants, animals and even minerals, Aqua Health Clinic transforms and seals nostalgia of old Beijing with new methods.
