A few words from Mr. Tsikandilakis:

Journey and elation: this is architecture for me! I think these two words sum up the reasons why I became an architect. My journey into architecture has been and always is an experience. I have always wanted with passion, love, and fun to touch and connect the contemporary with the tradition of the local with the global, with the aim of creating spaces that evoke emotions and inspire people's lives.

King Rigards,
