The 2024 Architecture MasterPrize Winners Announcement

**Official Press Release: 2024 Architecture MasterPrize (AMP) Awards Winners
Announced**

For Immediate Release

Los Angeles, October 14, 2024 – The Architecture MasterPrize (AMP) is proud to announce the winners of its 2024 edition, honoring visionary projects that are redefining the built environment across a broad range of disciplines.

This year's AMP celebrates exceptional projects from around the globe, confidently showcasing architectural works from both renowned figures and emerging talents, including Renzo Piano Building Workshop, Tadao Ando, SOM (Skidmore, Owings & Merrill), KieranTimberlake, Sir

Terry Farrell, and many others. Following an extensive evaluation process, the 2024 winners have distinguished themselves as leaders in the field, earning well-deserved international attention.

The awarded projects span a diverse array of categories, each making a profound impact on the trajectory of modern architecture and shaping the future of the industry. Notably, this year's highly celebrated *Architectural Design of the Year* title was awarded to a project that masterfully transformed a historic museum into a dynamic, state-of-the-art university, breathing new life into a cherished landmark. This transformation reinforces the power of architecture to inspire meaningful change, blending heritage with forward-thinking design.

In a historic moment, the *Social Impact Project of the Year* award was introduced for the first time in AMP's history. It was presented to a social housing project in Spain, praised for its immense social value and transformative impact on the local community, serving as an exemplary model for low-cost housing.

AMP is also proud to name James Corner as the *2024 Landscape Firm of the Year*, recognizing his visionary approach to urban spaces. His innovative work continues to shape major cities, offering solutions to environmental challenges while enhancing the human experience.

The AMP remains committed to its mission to highlight exceptional projects across all architectural disciplines, celebrating both established icons and rising talents. This year's winners stand as exemplars of creativity and technical brilliance, showcasing the vital role that architecture plays in shaping the world.

The 2024 Architecture MasterPrize Awards Winners Include:

- **Architectural Design of the Year:**

Johns Hopkins University Bloomberg Center by Rockwell Group (USA)

- **Interior Design of the Year:**

Nobu by Cuaik CDS (Mexico)

- **Social Impact Project of the Year:**

Best of Best Award

In a remarkable display of architectural excellence, a select group of projects—representing the top 5%—has earned the *Best of Best* title, recognizing their exceptional design and influence on the industry. Notable projects include:

- *MPavilion 10* by *Tadao Ando* - Small Architecture
- *Istanbul Museum of Modern Art* by *Renzo Piano Building Workshop* - Cultural Architecture
- *UCL East Marshgate* by *Stanton Williams* - Educational Buildings
- *Canvas House* by *PARTISANS* - Residential Architecture
- *The New Museum of Ethnography, Budapest* by *NAPUR Architect Ltd.* - Cultural Architecture
- *Lakeside Teahouse* by *Domain Architects* - Hospitality Architecture
- *The Ravine* by *A Work of Substance* - Residential Interior
- *and more*

The 2024 AMP winners represent the very best in architectural innovation and creativity, solidifying their place among the industry's leaders.

The awards ceremony will take place at the iconic Guggenheim Museum Bilbao on November 18, 2024, where both the 2023 and 2024 winners will be celebrated. This highly anticipated event promises to continue AMP's tradition of honoring the groundbreaking achievements of the world's most talented architects and designers.

For a complete list of the 2024 AMP winners and more information, please visit the official AMP website. The AMP team and jury panel extend their congratulations to all winners and express their deep appreciation to all participants for their outstanding contributions to the field of architecture and design.
