7. Murale

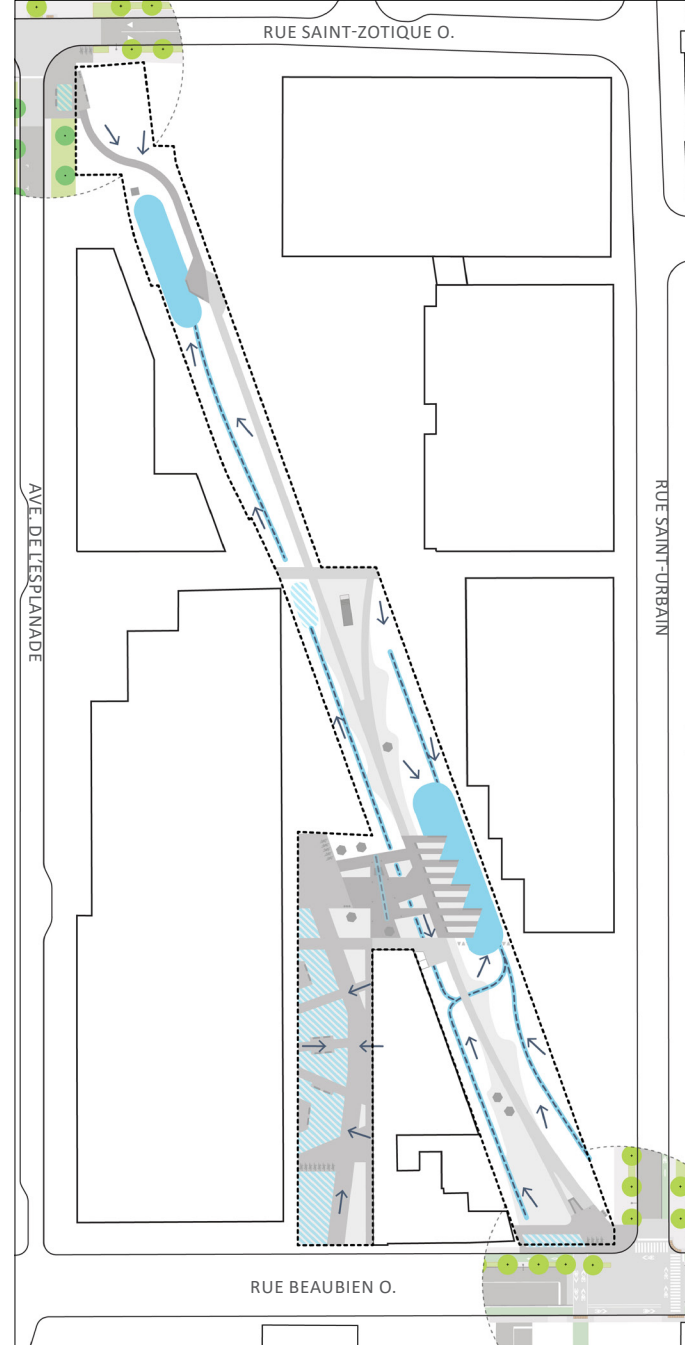

“ I call it, ‘Gorilla Park’ because many years ago, homeless people lived and planted their vegetable gardens, set-up camp, homesteaded until they were forced out by the authorities. The city never mowed the grass back then so it would often reach more than 5 feet high by the end of the season. Walking this magical path felt like an urban jungle, however, no gorillas ever lived here. ”

Frances Foster, AmiEs du Parc des Gorilles
